Cutters & Combi Brackets

Affordable mounting brackets for Hurst and Centaur rescue tools. Fabricated from eleven-gauge steel, rubber trimmed, with a baked-on textured, powder-coat finish. The result is a durable, lifetime product which will organize and protect your rescue tool investment. One of the most common problems in the fire service today is apparatus compartment space. Now you can mount rescue tools vertically or horizontally, utilizing all your compartment space. Your valuable rescue tools are held securely in place, easily accessible, and ready to go when you need them. All McMahan Enterprises products are proudly made in the USA and come with a

Hassle-free, limited lifetime warranty.
